¹ Information for the administration and reporting of statewide assessments is provided by the MDE Academic Standards, Instruction and Assessment Division. Information related to accountability results and appeals is provided by the MDE Student Access and Opportunity Division.

² WIDA will conduct standard setting in summer 2026 to establish updated proficiency level cut scores across all domains and composite scores for WIDA ACCESS. WIDA ACCESS results will be released first with initial proficiency level results aligned to the pre-2026 proficiency levels and then with updated proficiency levels reflecting the newly established cut scores. Important: Only initial proficiency level results can be used to inform EL status reclassification and exit decisions.

³ While MDE strives to ensure these dates remain unaltered, they are subject to change based on extenuating circumstances.

Event	Dates ³
