English Video

**Mathematics: CONTROL's Overall MCA-III Results**

Your Student 338

School Average 368.0
District Average 368.0
State Average 351.6

**Performance Level Description:**

Students at the **Does Not Meet the Standards** level succeed at few of the most fundamental mathematics skills of the Minnesota Academic Standards.

Mathematics Performance Details

Your student's score is compared to the state expectations for mathematics and its content areas. Performance in content areas within a subject is reported as Below Expectations, At or Near Expectations, or Above Expectations.

= Below Expectations

= At or Near Expectations

= Above Expectations

Mathematics Area	Description	Performance
Number and Operation:	May include understanding meanings of numbers and operations; computing fluently and making reasonable estimates.	 Below Expectations
Algebra:	May include models to understand, represent and analyze patterns, relations, and functions.	 Below Expectations
Geometry and Measurement:	May include analyzing properties of geometric shapes; understanding the units, systems, and processes of measurement.	 Below Expectations
Data Analysis:	May include organizing and displaying relevant data questions; understanding and applying basic concepts of probability.	 Above Expectations

Resources

- Go to the [Minnesota Academic Standards](https://education.mn.gov/Districts/Schools/Educators/Teaching/Learning/AcademicStandardsK12/) webpage to learn more about the learning expectations for each grade and subject (education.mn.gov > Districts, Schools and Educators > Teaching and Learning > Academic Standards K-12).
- Go to the [Minnesota Report Card](https://education.mn.gov/DataCenter/MinnesotaReportCard/) to see results for your student's district and school and others throughout the state (education.mn.gov > Data Center > Minnesota Report Card).

Your Student's Mathematics Performance History

Your student's performance history on the Mathematics MCA-III is below. The table shows the achievement level for your student by grade and subject.

Your Student's Mathematics Performance History

	Student Grade	3	4	5	6	7	8
	Year	2026					
	Achievement level of student score on grade level standards	 Does Not Meet					

- **What does the year to year comparison above represent?**
- The table shows results for each year the MCA was given in the subjects applicable to that grade. When no score is available, a description of why is included.
 - The four MCA performance levels, also referred to as achievement levels, include Does Not Meet, Partially Meets, Meets, and Exceeds the Standards.
 - The performance level reported for a grade relates to the Minnesota Academic Standards tested in that particular grade only. When looking at results across grades, keep in mind academic standards change from grade to grade.
 - Students who achieve the Meets or Exceeds the Standards performance levels are demonstrating the knowledge, skills and abilities expected for their grade level, as described in the academic standards.
- **What is the Individual Student Report (ISR) about?**
- This ISR provides your student's results on the Minnesota statewide assessments taken in the spring of 2026 to measure student learning of the Minnesota Academic Standards.
 - This ISR includes your student's overall score and performance level in each subject tested and the average scores for students at your school, your district, and at the state level.
 - If you have questions about the results, we encourage you to contact your student's school.
- **Who takes these assessments?**
- The Minnesota statewide assessments are taken by all public students in grades 3-8 and 11 in mathematics, in grades 3-8 and 10 in reading, and in grades 5, 8, and once in high school in science.
- **How should parents/guardians use these results?**
- State test results are a snapshot of student learning from one day, and they are one data point among many that schools use when measuring classroom teaching and learning.
 - Teachers use other assessments on a regular basis, such as quizzes, mid-terms, chapter tests, and final exams, to capture how well students are learning concepts taught in the classroom. Teachers look for areas students do well so they can reinforce how those skills are taught, and for areas that need improvement so they can individualize instruction.
 - To be an advocate for your student, keep track of their academic progress and communicate regularly with their teachers.
- **Where can parents/guardians find more information?**
- [MDE Students and Families Statewide Testing page](#) under Assessment Results (education.mn.gov > Students and Families > Programs and Initiatives > Statewide Testing)
- **How can I request my student's results in a translated language or an alternative format?**
- If a QR code is present on page 1, a video summary of your student's results may be available. If a home language was reported to your student's school or district, an audio translation with captions may be available. This report may also be made available in an accessible format, such as large print, braille, or as an audio file. Contact MDE by email at mde.testing@state.mn.us or by phone at 651-582-8674. TTY users may call the Minnesota Relay Service at 711.

Your Student's Mathematics Performance History

	Student Grade	3	4	5	6	7	8
	Year	2024	2025	2026			
	Achievement level of student score on grade level standards	 Meets	 Meets	 Exceeds			

➤ What does the year to year comparison above represent?

- The table shows results for each year the MCA was given in the subjects applicable to that grade. When no score is available, a description of why is included.
- The four MCA performance levels, also referred to as achievement levels, include Does Not Meet, Partially Meets, Meets, and Exceeds the Standards.
- The performance level reported for a grade relates to the Minnesota Academic Standards tested in that particular grade only. When looking at results across grades, keep in mind academic standards change from grade to grade.
- Students who achieve the Meets or Exceeds the Standards performance levels are demonstrating the knowledge, skills and abilities expected for their grade level, as described in the academic standards.

➤ What is the Individual Student Report (ISR) about?

- This ISR provides your student's results on the Minnesota statewide assessments taken in the spring of 2026 to measure student learning of the Minnesota Academic Standards.
- This ISR includes your student's overall score and performance level in each subject tested and the average scores for students at your school, your district, and at the state level.
- If you have questions about the results, we encourage you to contact your student's school.

➤ Who takes these assessments?

The Minnesota statewide assessments are taken by all public students in grades 3-8 and 11 in mathematics, in grades 3-8 and 10 in reading, and in grades 5, 8, and once in high school in science.

➤ How should parents/guardians use these results?

- State test results are a snapshot of student learning from one day, and they are one data point among many that schools use when measuring classroom teaching and learning.
- Teachers use other assessments on a regular basis, such as quizzes, mid-terms, chapter tests, and final exams, to capture how well students are learning concepts taught in the classroom. Teachers look for areas students do well so they can reinforce how those skills are taught, and for areas that need improvement so they can individualize instruction.
- To be an advocate for your student, keep track of their academic progress and communicate regularly with their teachers.

➤ Where can parents/guardians find more information?

- [MDE Students and Families Statewide Testing page](#) under Assessment Results
(education.mn.gov > Students and Families > Programs and Initiatives > Statewide Testing)

➤ How can I request my student's results in a translated language or an alternative format?

If a QR code is present on page 1, a video summary of your student's results may be available. If a home language was reported to your student's school or district, an audio translation with captions may be available. This report may also be made available in an accessible format, such as large print, braille, or as an audio file. Contact MDE by email at mde.testing@state.mn.us or by phone at 651-582-8674. TTY users may call the Minnesota Relay Service at 711.

These are your student's results from the Minnesota Comprehensive Assessments taken in the spring of 2026.

Minnesota Academic Standards**Mathematics**

CONTROL's score shows performance **slightly below** grade 5 standards

MCA scores are used in school-level planning when considered alongside other school and district progress data

**Mathematics: CONTROL's Overall MCA-III Results**

Your Student 546

School Average 553.4
District Average 553.4
State Average 545.1

**Performance Level Description:**

Students at the **Partially Meets the Standards** level partially meet the mathematics skills of the Minnesota Academic Standards.

Mathematics Performance Details

Your student's score is compared to the state expectations for mathematics and its content areas. Performance in content areas within a subject is reported as Below Expectations, At or Near Expectations, or Above Expectations.

= Below Expectations

= At or Near Expectations

= Above Expectations

Mathematics Area	Description	Performance
Number and Operation:	May include understanding meanings of numbers and operations; computing fluently and making reasonable estimates.	 Below Expectations
Algebra:	May include models to understand, represent and analyze patterns, relations, and functions.	 Below Expectations
Geometry and Measurement:	May include analyzing properties of geometric shapes; understanding the units, systems, and processes of measurement.	 At or Near Expectations
Data Analysis:	May include organizing and displaying relevant data questions; understanding and applying basic concepts of probability.	 At or Near Expectations

- If you have questions about the results, we encourage you to contact your student's school.

➤ Who takes these assessments?

The Minnesota statewide assessments are taken by all public students in grades 3-8 and 11 in mathematics, in grades 3-8 and 10 in reading, and in grades 5, 8, and once in high school in science.

➤ How should parents/guardians use these results?

- State test results are a snapshot of student learning from one day, and they are one data point among many that schools use when measuring classroom teaching and learning.
- Teachers use other assessments on a regular basis, such as quizzes, mid-terms, chapter tests, and final exams, to capture how well students are learning concepts taught in the classroom. Teachers look for areas students do well so they can reinforce how those skills are taught, and for areas that need improvement so they can individualize instruction.
- To be an advocate for your student, keep track of their academic progress and communicate regularly with their teachers.

➤ Where can parents/guardians find more information?

- [MDE Students and Families Statewide Testing page](#) under Assessment Results
(education.mn.gov > Students and Families > Programs and Initiatives > Statewide Testing)

➤ How can I request my student's results in a translated language or an alternative format?

If a QR code is present on page 1, a video summary of your student's results may be available. If a home language was reported to your student's school or district, an audio translation with captions may be available. This report may also be made available in an accessible format, such as large print, braille, or as an audio file. Contact MDE by email at mde.testing@state.mn.us or by phone at 651-582-8674. TTY users may call the Minnesota Relay Service at 711.

These are your student's results from the Minnesota Comprehensive Assessments taken in the spring of 2026.

Minnesota Academic Standards**Mathematics**

Control's score shows performance **slightly below** grade 8 standards

MCA scores are used in school-level planning when considered alongside other school and district progress data

**Mathematics: Control's Overall MCA-III Results**

Your Student 845

School Average 859.6
District Average 859.6
State Average 845.5

**Performance Level Description:**

Students at the **Partially Meets the Standards** level partially meet the mathematics skills of the Minnesota Academic Standards.

Mathematics Performance Details

Your student's score is compared to the state expectations for mathematics and its content areas. Performance in content areas within a subject is reported as Below Expectations, At or Near Expectations, or Above Expectations.

= Below Expectations

= At or Near Expectations

= Above Expectations

Mathematics Area	Description	Performance
Number and Operation:	May include understanding meanings of numbers and operations; computing fluently and making reasonable estimates.	 Below Expectations
Algebra:	May include models to understand, represent and analyze patterns, relations, and functions.	 At or Near Expectations
Geometry and Measurement:	May include analyzing properties of geometric shapes; understanding the units, systems, and processes of measurement.	 Below Expectations
Data Analysis and Probability:	May include organizing and displaying data questions; understanding and applying basic concepts of probability.	 Below Expectations

Resources

- Go to the [Minnesota Academic Standards](https://education.mn.gov) webpage to learn more about the learning expectations for each grade and subject (education.mn.gov > Districts, Schools and Educators > Teaching and Learning > Academic Standards K-12).
- Go to the [Minnesota Report Card](https://education.mn.gov) to see results for your student's district and school and others throughout the state (education.mn.gov > Data Center > Minnesota Report Card).

Your Student's Mathematics Performance History

Your student's performance history on the Mathematics MCA-III is below. The table shows the achievement level for your student by grade and subject.

Your Student's Mathematics Performance History

Student Grade	3	4	5	6	7	8
Year	2021	2022	2023	2024	2025	2026
Achievement level of student score on grade level standards	 Does Not Meet	 Partially Meets	Not Completed	 Meets	 Meets	 Partially Meets

- **What does the year to year comparison above represent?**
- The table shows results for each year the MCA was given in the subjects applicable to that grade. When no score is available, a description of why is included.
 - The four MCA performance levels, also referred to as achievement levels, include Does Not Meet, Partially Meets, Meets, and Exceeds the Standards.
 - The performance level reported for a grade relates to the Minnesota Academic Standards tested in that particular grade only. When looking at results across grades, keep in mind academic standards change from grade to grade.
 - Students who achieve the Meets or Exceeds the Standards performance levels are demonstrating the knowledge, skills and abilities expected for their grade level, as described in the academic standards.
- **What is the Individual Student Report (ISR) about?**
- This ISR provides your student's results on the Minnesota statewide assessments taken in the spring of 2026 to measure student learning of the Minnesota Academic Standards.
 - This ISR includes your student's overall score and performance level in each subject tested and the average scores for students at your school, your district, and at the state level.
 - If you have questions about the results, we encourage you to contact your student's school.
- **Who takes these assessments?**
- The Minnesota statewide assessments are taken by all public students in grades 3-8 and 11 in mathematics, in grades 3-8 and 10 in reading, and in grades 5, 8, and once in high school in science.
