

Mathematics MTAS Individual Student Report (ISR) Quick Guide

Individual Student Reports (or ISRs) are generated for every student who is expected to take a statewide assessment. The ISR provides information about your student's performance and learning of the Minnesota Academic Standards.

The MTAS is administered to students in mathematics in grades 3–8 and 11.

Each subject and test appears on a separate ISR. If your student did not participate, the ISR shows why results are not included (for example, absent or not completed).

1. Student Information—Your student's name, grade, school, district, testing year, and assessment.
2. Performance Meter—Your student's overall score is shown as a performance level, also known as an achievement level. There are four performance levels: Does Not Meet, Partially Meets, Meets, or Exceeds the Standards.

MTAS M-G-8 **DEPARTMENT OF EDUCATION** **Firstname M. Lastname** **1**
 School Name
 Public School District Name
 Spring 2026
 Grade 8

These are your student's results from the Minnesota Test of Academic Skills taken in the spring of 2026.

2 **3** **4** **5** **6**

Mathematics
 Meets

Alternate Achievement Standards
 Firstname's score shows performance that **meets** grade 8 alternate achievement standards
 MTAS scores are used in school-level planning when considered alongside other school and district progress data

Student Results Video
 Scan the **QR code** to access a video of your student's results or contact your student's school for a link to the video.
 Your student's school can provide information on how to use these results.
 English Video / Видео на русском языке

Mathematics: Firstname's Overall MTAS-III Results
 Your Student 204
 119 190 200 207 237
 Does Not Meet Partially Meets Meets Exceeds
 State average score is 199.6

Performance Level Description:
 With the occasional use of supports, students at the **Meets** level succeed at many of the skills on the extended standards of the Minnesota Academic Standards in mathematics.

Mathematics Performance Details
Firstname's score Meets the Mathematics Alternate Achievement Standards
 Students at the **Meets** level succeed at many of the skills on the extended standards of the Minnesota Academic Standards in mathematics. With the occasional use of supports, the students may demonstrate the ability to:
 • Compare rational numbers.
 • Evaluate an algebraic expression when the value of one variable is given.
 • Recognize that parallel lines have the same slope.
 • Estimate line of best fit on scatterplots.

Resources
 • Go to the [Minnesota Academic Standards](https://education.mn.gov) webpage to learn more about the learning expectations for each grade and subject (education.mn.gov > Districts, Schools and Educators > Teaching and Learning > Academic Standards K-12).
 • Go to the [Minnesota Report Card](https://education.mn.gov) to see results for your student's district and school and others throughout the state (education.mn.gov > Data Center > Minnesota Report Card).

 mmddyy-20000000-0000-00-000-00000000

3. Alternate Achievement Standards—A description of your student's score in relation to what students at each performance level are expected to know on extended standards of the Minnesota Academic Standards.
4. Student Results Video—Students with a test score have a personalized video ISR with a summary of their performance on the test available by scanning the unique QR code on the report. The video may also be available in a home language based on student enrollment data if reported to your student's school or district.
5. Overall Results—Your student's score, the state average score, and a description of your student's performance level.
6. Performance Details—A description of the skills demonstrated at the overall performance level for your student.

Information for students and families is available on the **MDE Statewide Testing Students and Families** website (education.mn.gov > Students and Families > Programs and Initiatives > Statewide Testing).

Your Student's Mathematics Performance Details

Minnesota Test of Academic Skills (MTAS) Scoring Rubric

The MTAS consists of nine performance tasks per subject. For each task, points are earned according to the guidelines below.

- The student responds correctly without assistance = **3 points**
- The student responds correctly to the task after the test administrator provides additional support = **2 points**
- The student responds incorrectly to the task after the test administrator has provided additional support = **1 point**
- The student does not respond to the task or the student's response is unrelated to the task = **0 points**

Mathematics Area	Description	Points Earned* /Points Possible
Number and Operation:	May include understanding meanings of numbers and operations and how they relate to one another; computing fluently and making reasonable estimates.	4 / 6
Algebra:	May include models to understand, represent and analyze patterns, relations, and functions.	7 / 12
Geometry and Measurement:	May include analyzing characteristics and properties of two- and three-dimensional geometric shapes and developing mathematical arguments about geometric relationships; understanding the units, systems, and processes of measurement.	2 / 3
Data Analysis and Probability:	May include organizing and displaying relevant data questions; understanding and applying basic concepts of probability.	5 / 6
TOTAL:		18 / 27

* State averages for the areas and total are 4.8, 7.2, 2.1, 3.9, and 18.0 respectively.

What is the Individual Student Report (ISR) about?

- This ISR provides your student's results on the Minnesota statewide assessments taken in the spring of 2026 to measure student learning of the extended standards of the Minnesota Academic Standards.
- For each reported subject, overall performance includes your student's score, related Alternate Achievement Standard level, and state average score.
- Your student's performance details in content areas within extended standards include points earned compared to points possible for each content area and the total, including state averages for each of those score areas.
- When reviewing student scores and state averages, keep in mind that each student has unique needs considered in the administration of tasks, which influence performance on this particular assessment.
- If you have questions about the results, we encourage you to contact your student's school.

Who takes these assessments?

Minnesota statewide assessments are taken by all public students in grades 3-8 and 11 in mathematics, in grades 3-8 and 10 in reading, and in grades 5, 8, and once in high school in science. Students with the most significant cognitive disabilities who meet specific eligibility criteria may take the Minnesota Test of Academic Skills (MTAS) or the Alternative Minnesota Comprehensive Assessments (Alt MCA).

Where can parents/guardians find information?

- [MDE Students and Families Statewide Testing page](#) under Assessment Results (education.mn.gov > Students and Families > Programs and Initiatives > Statewide Testing)

How can I request my student's results in a translated language or an alternative format?

If a QR code is present on page 1, a video summary of your student's results may be available. If a home language was reported to your student's school or district, an audio translation with captions may be available. This report may also be made available in an accessible format, such as large print, braille, or as an audio file. Contact MDE by email at mde.testing@state.mn.us or by phone at 651-582-8674. TTY users may call the Minnesota Relay Service at 711.

7. MTAS Scoring Rubric—During test administration, the Test Administrator used this rubric to score your student on each task.
8. Performance Details—For each subject, performance details are reported in points earned compared to points possible for each content area and the total.
9. State Averages—State averages for the content areas and total are provided for comparison.
10. FAQs and Resources—The second page of each ISR includes FAQs and information on where to find additional resources.
11. Contact Information—To request the report in an alternative format or translated language, please contact the Minnesota Department of Education by email at mde.testing@state.mn.us, by phone at 651-582-8674, or visit the [MDE Statewide Testing](#) website (education.mn.gov > Districts, Schools and Educators > Statewide Testing > Teaching and Learning > Statewide Testing).
